ST. MARY'S SCHOOL WORK FINDS ITS REWARD

Voters will please understand that Cigarette Coupons, Soap Wrappers, etc., are redeemable only at Deacon's Dry Goods Store. This is profited.

Hundreds of customers have been anticipating the Red Letter Days for voting. Through one channel or another they had learned of this ahead of time, and in consequence, these first Red Letter Days are suggestive of the great outpouring of customers the Competition Merchants will receive in ever increasing numbers each succeeding week. The great importance of the Red Letter Days should be plainly apparent to every voter. Remember they are Thursday, Friday and Saturday.

The B. P. O. Elks, The Eagles, The Odd Fellows, Knights of Columbus, The High School, State Trade and St. Mary's Schools, constitute a formidable collection of competitors who will shake the beautiful little city of Putnam from center to circumference with interest, before the contest has progressed much further. The fundamental and primary effort upon the part of each individual home is to vote regularly and persistently the label and redemption opportunities. For example, take the Order of Eagles which no doubt has a membership of 300 or thereabouts. These 300 members represent approximately the same number of families and if these families will without deviation, use Gold Medal Butter an average of from ten to fifteen thousand votes could be cast daily. A family will use a pound of Butter in all the way from one to three days and one pound of Butter in each home every three days would represent 30,000 votes. If this result were being obtained, it would not be necessary to vote all the wrappers that were secured and a large portion of them could be set aside as a utility fund, which the working committee could draw upon at any time or hold in reserve until the contest was over and spring a surprise upon their opponents.

The same identical philosophy applies to Union Club Coffee and Russian Blended Tea, to Superlative Self Raising Flour of the Hecker Cereal Company, to the Nugget and Avanti Cigars, manufactured by Mr. Madden.

For a family not to be thus responsive, there is no excuse for every article herein mentioned is a table necessity in every home; the Cigar sometimes being an exception to the rule, and such articles are almost a daily purchase. It should be more than easy in the present case for the head of the household to purchase the articles in view of the fact that each one of them is the peer of its kind on the shelf of any store. The Library Advertising Company will not associate itself with a second-rate article, it must be A. 1. first-class, unexcelled. Every reader of today's paper should resolve to set his home right in the matter and when his home is gridding out these hundreds of votes every few hours, through the acquisition of these advertised articles, it goes without saying that every member of this household, when they set out upon the street to purchase a pair of shoes will be more than disposed to resort to our shoe dealer, who is equally willing to patronize our Chloride and will be pleased to make their expenditure.

tures in our excellent and most attractive Department Store, in fact, the real merchants who represent every department of trade in our organization will enjoy a stimulus of trade that will surpass any similar period in the years gone by. When you go into a contest, you should do it with the resolution to enter full-fledged, whole-hearted and determined that full one hundred per cent of your individual powers will characterize your personal efforts. It makes it more interesting to you, it makes it more interesting to your competitors, for they will endeavor to match your accomplishments with theirs, and in consequence, a real live competition will be in process and will prove a source of unlimited pleasure and interest. When this article appears in the Bulletin, the writer will be in Putnam, and will be pleased to disseminate any information that may be desired by any individual. He will stop at the Putnam Inn and word left here or at Deacon's Department Store will reach him.

You will find Union Club Coffee at Charles A. Richards and E. W. Mullins and you will find Gold Medal Butter on sale at Beausoleil Bros. A. Beausoleil, R. Beausoleil, S. Drucker, G. M. Durand, J. H. Green, J. A. Hart, Jussien & Kys, A. & P. Magnus, E. O. Marion, J. J. McGarry, E. Mullins, C. A. Richards, R. F. Shippee, E. T. Tucker and F. J. Warren.

The voting of the Five Vote Bulletin Coupon in proving a great factor. Every reader should clip the coupons and vote them for their favorite institution. If you have a friend who is interested in the contest, but who do not happen to be readers of this newspaper, tell them about the coupon and also make them acquainted with the fact that only by reading this publication can they find all the facts about the contest and the coupon appearing every day in the Bulletin.

The Bonus for each set of coupons is now FIFTY VOTES. Each set represents 50 votes, which, together with the Bonus of Fifty, makes a total of 100 votes for each set. One Hundred sets would represent 8,500 votes and this should be easily accumulated each week.

Record Class Receives Diplomas at
 Killingly High School.

Forty-seven students of Killingly High school, the largest class ever graduated from the institution, received their diplomas from the hands of Rev. Clarence H. Barber, member of the town school committee, toward the close of the graduating exercises in the town hall Thursday evening.

There were many who sat in the large audience greatly impressed by the spectacle of so many young men and women receiving their reward of four years' study and devotion to duty as their memories drifted back over the years to the days when the graduating classes numbered less than a dozen members and the realization of a feeling of deep gratification that Killingly has such a splendid educational institution and of the fact that it is so greatly appreciated not only here but in the surrounding New York State, each year numbers of students to follow its courses of study. The growth of the institution and its expansion of service are rewards equivalent to the cost it has imposed.

This year the address was delivered by Rev. Emory Hunt, D. D., LL. D., his subject, discussed from the standpoint of an able educator, being How Much Education? The answer was fully satisfying to all.

Town hall was prettily decorated, the class flower, the daisy, predominating in the floral arrangement. Members of the school were grouped in tiers of seats erected on the stage, where also sat Principal Robert K. Bennett, the high school teachers and members of the town school committee. The musical programme was as usual, and very fine. Music was by the high

Fate of Schooner Flora A. Kimball.
 Danielson people will be interested in the fate of schooner Flora A. Kimball.

She was largely owned by Captain Gilbert S. Kelley, who, with his wife and son, lived at Fairview, in Danielson. Both Captain and Mrs. Kelley died within two years and the son had his father's interest in the schooner since. During his life, Captain Kelley not only owned a large interest in the schooner but he was also a member of the vessel's crew.

Last December she was chartered to take a cargo of coal to San Domingo, West Indies, and from there she went to Morgan City, La., and loaded a cargo of dried cypress for New York. She was in command of an experienced captain, J. A. Clay. When passing within less than 24 hours of New York she went on Barnegat shoals, last April, where she lay for nearly 20 days.

The Mottet & Chapman Wrecking company finally located the vessel at a salvage of 60 per cent. After throwing the deckload over, the vessel was towed to New York City. The owners were unable to agree with the wrecking company in regard to the value of the vessel for the purpose of settling the salvage. The vessel was then sold to the clerk of court's office the sale had to be postponed until next week, when she was let go at what she would bring at market's sale. She was purchased at the sale by Pendleton Brothers for \$4,600. Only this small amount was realized because of the tremendous damage that had been done her on the shoals.

The interests of the Danielson heir are fully protected by insurance, but now this vessel, which for nearly ten years has been largely owned by Danielson residents, has passed to ownership foreign to this borough.

Chase of Amesbury. Only relatives and friends were present at the marriage, at which F. B. Sargent of the Congregational church officiated.

The Andem greenhouses were liberally drawn upon for the beautiful decorations at the Andem home, pink and white being the color scheme.

The bride wore a white crepe de chine, trimmed with Princess lace. Her veil was that worn by her mother at her wedding and was caught with a spray of orange blossoms.

For the processional the bridal march from Lohengrin was played by a trio consisting of piano, violin and cello. Mendelssohn's wedding march was played after the marriage ceremony, which was at four o'clock.

Showered with rose petals, Mr. and Mrs. Chase left in an automobile for their wedding trip to Northampton Beach, N. H., where Mr. Chase has a summer cottage.

Mr. Chase is a graduate of Harvard university, class of 1911, and is business head accountant of the Western Electric company at Boston, near which city they are to reside in the fall.
